

CITY OF LEONARD, TEXAS
Public Works Department

FOR IMMEDIATE RELEASE

DATE: July 1, 2026

RE: Streets Maintenance Notice

The City of Leonard would like to inform residents of streets maintenance currently underway. There is a contractor onsite today preparing the following streets for chip sealing. Please be advised that the roads prepared for sealing will undergo a fine grading process over the next few days.

As a result, these roads will be extremely dusty until next week when they are scheduled for a penetrating oil treatment, tentatively scheduled for Monday, July 6th. Until then, we will make our best effort to mitigate the dust.

ACTION REQUIRED: Please be advised of the above; mind any street signage or barricades during the preparation in the affected areas.

IMPACT AREA:

- S. Parmele
- E. Austin
- W. Grayson
- S. Oak
- W. Locust
- S. Park
- W. Travis
- E. Grayson

Thank you so much for your patience and cooperation.
