Public Works Department

FOR IMMEDIATE RELEASE

DATE: July 22, 2026

RE: Possible Boil Water Notice for 7/27/2026

Dear Residents and Businesses:

The City of Leonard Public Works Department would like to inform you that it is faced with an unknown water leak at the intersection of Main Street and Thomas Street. There are three water lines in this area – (1) 8" Water Main, (1) 2" Water Line, and (1) ¾" Service Line - the leak could be on any one of these lines.

We plan to begin repairs on Monday morning, July 22, 2026, at approximately 8:00 AM. It is possible that the repair can be completed without triggering a boil notice; we will know more once we expose the problem.

If a boil water notice is required, we will send out a citywide notification via CodeRed, the city's emergency notification system, and post to the city website and on Facebook, as usual.

If there is no need for a boil water notice, we will post to the city website.

ACTION REQUIRED:

Please be advised of the possibility of a boil water notice on Monday, July 27, 2026.

IMPACT AREA:

Citywide

Thank you for your patience and cooperation. Please feel free to reach out with any questions.
