

CITY OF LEONARD, TEXAS
Public Works Department

FOR IMMEDIATE RELEASE

DATE: August 14, 2026

RE: Low Pressure/No Pressure Notice

Dear Residents and Businesses:

The City of Leonard Public Works Department is currently working on an emergency leak repair of a 6-inch water main split along Highway 69 in the Southeast section of town. Surrounding areas may experience low or no water pressure during the repair. We do not have an estimated time for water service restoration. Water pressure will be restored as soon as possible.

We apologize for the inconvenience and seek to inform the public as soon as possible.

If a boil water notice is required, we will send out a citywide notification via CodeRed, the city's emergency notification system, and post to the city website and on Facebook, as usual.

ACTION REQUIRED:

Please be advised of low/no water pressure and the possibility of a boil water notice.

IMPACT AREA:

South/Southeast section of town and possible surrounding areas.

Thank you for your patience and cooperation. Please feel free to reach out with any questions.
